

FORMER PASTOR TO VISIT REVIVAL

Former friends and acquaintances of Rev. Geo. A. Brice, now pastor of the Methodist church in Morgan Hill, will be pleased to hear that he has been asked to visit the local Methodist church next week and assist Rev. Peck in the preaching. The revival is now in full swing in the local church and events are occurring even more rapidly than it was expected. The presentation of the Gospel messages by Rev. Peck, a seasoned campaigner of the evangelistic platform, is plain, fiery, forceful and yet so full of wit and humor, which is in turn, so amusing as to cause roars of laughter and then so full of pathos as to move more tender hearts of the audience to tears, that everyone present is both interested and benefited thereby.

One of the features of the services is the song service which precedes the address of the evening. These are led by E. J. Halcor, whose efforts are ably supported by a chorus choir of the young people and members of the church. "E. J." also delights the people with solos which are efficient aid to Rev. Peck in his efforts. Other soloists are Thomas Vernell, Mrs. Lydia Ruth Maden, and Miss Sylvia Underhill. The last two named officiating at the organ and piano respectively in addition to their singing.

Already Mr. Peck reports accessions to the church among which there are several by "conversion" or "profession of faith" as it is termed in the Methodist form of worship.

There is great interest in the campaign, the attendance being larger than ever recorded in the history of the local church, except on special occasions, such as Easter or Christmas.

Mrs. Nash Back From Convention

Mrs. Elizabeth M. Nash, San Mateo County Clerk, returned to her home in this city this week from Sacramento, where she went to attend the annual convention of the Association of County Clerks of the State of California.

Mrs. Nash was re-elected secretary of the organization, an office which she has held for the past two years. The convention was one of the best ever held by the association. Mrs. Nash reports, there being in attendance over forty county clerks. The principal business of the session was a discussion of the measure now pending before the State Legislature.

It is reported, with the provision that the allowance might be increased if Elkins' income exceeded a certain sum.

Testimony introduced was to the effect that Elkins had said that he had fed up on married life and that he had taken a woman in New York where he intended to live alone.

Felton Elkins is the grandson of the late Senator Charles N. Felton, of Menlo Park and spent his boyhood at the home of his grandfather here.

ALLEN TRAIL BEGINS IN ALAMEDA CO.

With a crowded courtroom before Judge George Samuels of Alameda county, the trial of Harry Allen, who resided at one time in Redwood City and who is now being held for the murder of Walter Dowdy, began Tuesday. Allen, who was arrested some time ago, when after leaving San Jose with Dowdy, by whom he was formerly employed, he drove into San Jose with Dowdy's body in the back of the machine and a blood stained hatchet under the seat. Allen when arrested told the police that they had been assaulted on the way by robbers who had killed Dowdy, but that he himself had escaped by hiding behind a bush.

The prosecution is endeavoring to show that Allen killed his companion and then robbed him of \$125 in cash which he was carrying with him at the time. Allen, when arrested, had that amount on him.

Among the first of the witnesses called by Deputy District Attorney Preston Higgins of Alameda county, was Mrs. Walter Dowdy, widow of the murdered man. Mrs. Dowdy testified that her husband had left in a car on a trip planned by Allen. Frank Knack, another employee of the garage, testified that the hatchet with which Dowdy was killed was in the car when the men drove away. When found by the police, this hatchet was stained with blood and had been washed with gasoline.

It is expected from all accounts that the trial will be one of long duration. The trial is attracting considerable local attention, as Dowdy as well as Allen was well known here and had many friends in Redwood City and throughout the peninsula.

A short time ago I mentioned the names of some who were installing radio receiving sets. But now it would make a much shorter list to enumerate those who have not installed some kind of radio device.

Even among the children, the principal topic of conversation has to do with crystal sets and pea-tube sets and their relative merits and expense. And it is not so unfamiliar with the technical vocabulary of radio he may as well not listen in on the ordinary street orner conversation.

Miss May Huddart, Sunday School Superintendent, is busy preparing her pupils for the Easter services. It has been customary in our church to turn the Easter program over to the children of the Sunday School and right well have they acquitted themselves of their responsibilities.

The farmers of this valley are wearing the furrowed brow that bespeaks the troubled minds over the recent weather conditions. For over a month no rains have fallen and what adds to their misfortune, the north wind has blown plentifully so that the surface of the ground is dry and hard. The grain is already beginning to show the effects of the lack of moisture, and the rain is delayed much longer, there may be serious losses.

WRITES OF WONDERS OF-HAWAII ISLANDS

Mrs. Frank Wentworth, one of the winners in the Times-Gazette's great Travel Club Contest which occupied the attention of Redwood City last fall, has returned from the trip to Hawaii, a trip she won by her efforts in the contest. Mrs. Wentworth spent several pleasant weeks in the little island and has much to tell her friends. The following letter which she wrote to the editor on the way back and finished after arriving home tells of her many experiences in "The Paradise of the Pacific."

Steamship Ventura, At Sea, Mar. 1.
Mr. O'Keefe,

Dear friend:

Just a few more lines to tell you more about Honolulu as a city. There are about 30,000 Whites there and about 30 times as many Asiatics, such as Hawaiians, Japs, Chinese, Portuguese, Koreans and almost every nationality one can mention. The business section is not so very large, but the stores are wonderful. The largest one being the Liberty House, a great deal like the Emporium in San Francisco, with every thing strictly up-to-date. There are several dry goods stores and large jewelry stores, shoe stores, and there are numerous stores run by Japanese and Chinese. Their churches are large and well attended, much more so than they are in the States. I attended the old Hawaiian church, and it was very interesting to hear the minister preach in the native language and the singing was beautiful. An American also preaches a sermon in English. Near this church is an old statue of the first king of the island, named Kamehameha I, and between this statue and the church a very old man presides back and forth all day. His superstition is that all the King's money is buried with him and he believes that at the hour of five any day, the king will come forth and claim the money so he guards it for him.

Honolulu has two very large and beautiful theatres. One, the Empress, and the other, the Hawaii. Not any theatre in San Francisco can compare with them. There are several other smaller ones.

The schools on the island are fine. There are a large number of them. Several high schools, a normal school and the University of Hawaii. There are also several bank buildings and other business buildings.

Every Sunday the Municipal band plays at Capotani Park, and the native women sing. It is a musical treat to hear them. Another place of interest is the Bishop Museum, where they show the noted feathered cloaks, which were worn by the warriors and nobles hundreds of years ago. The cloaks are made entirely of feathers woven on a net foundation, the colors being yellow and red. The stuffed birds are shown there, from which the feathers are plucked. One coat shown cost \$1,000.00 and is gorgeous. The cloaks cannot be seen any where else.

I went thru the Hawaiian Pineapple cannery, the largest in the world. When in full operation during the summer months, 3,000 people are employed. The whole pineapple cannery covers an area of fourteen acres. They put up 350 tons of pineapple at a time. It is indeed very interesting in every detail. Libby, McNeill & Libby also have a cannery there.

I witnessed the great tidal wave and every one was very excited over it. It was a strange sight. I happened to be sitting on the beach at the time. Glad it wasn't any worse as it might have washed me home before I wanted to leave.

When it rains in Honolulu it absolutely pours. You'd think the ocean was turned upside down. They call it liquid sunshine. It really does rain on one side of the street and the sun will be shining on the other.

One does not have to wear rubber coats when it rains. I went out with thin dresses on and carried a Japanese parasol. Parasols are used for both rain and sun.

Good times can't last for ever so I must be ready to start for dear old home land. Left Honolulu at 5 p. m. on the 6th of March. It was very impressive to hear the band play, and watch every one putting leis around the passenger's necks. A very beautiful custom I think.

To make a long sea sick story short I didn't appear on deck after my first dinner until the following Saturday. You can guess what happened to me. The roughest trip, so says the captain, that he had for so many years.

When I came up on deck I made up for lost time. Entered into the deck sports and danced. The farewell night was given in the Captain's honor. A spread to please the king was set before us and we had speeches and merry making. Every one had a lovely time even though the trip was rough. We docked at San Francisco at 10 a. m. Wednesday morning and I was glad to see the smiling face of my husband to greet me home.

The trip to Honolulu and my story while there will be a wonderful item in my book of memories. I'd like to go again. I could write a book, but I feel sorry for the type-setters.

Very sincerely,
MRS. CHARLOTTE WENTWORTH

FIRE IN LOCAL GARAGE THURSDAY

The fire department was called out shortly after five o'clock last Thursday by an alarm from box 13 on the corner of Broadway and Main streets. The fire which was in a little shed attached to the rear of the old Chamberlain store building, now being used as a garage, had made considerable headway before the alarm was sounded. The fire department, which responded in its usual prompt manner, got the flames under control, however, before any damage was done to the building proper, which is of brick construction. A number of cars which were in the garage were taken out in record time and no damage suffered by any of them.

GETS FIVE DAYS FOR STREET BRAWL

Miss Viola Masenhelder, a resident of the Five Points district, was sentenced to five days in the county jail yesterday following a street fight in which she attacked and severely beat one of her neighbors, a Mrs. Oltman, who was in a critical state of health at the time. In the course of the investigation, Judge Griffin delivered a scathing lecture to the young woman, who has appeared in the same court before for disturbing the peace. "When the women of the community so lower themselves as to get out and fight like common drunks," said Griffin, "it is a shameful disgrace." Judge Griffin characterized the Five Point situation as being like the measles, breaking out about every three months and said that these neighborhood brawls would have to stop.

Miss Masenhelder was represented by Attorney Mansfield who argued her case well, but could not change the decision of Judge Griffin. A preliminary hearing held last Thursday, Miss Masenhelder said, "I cracked her a good one." The cause of the whole affair appears to be that the other woman made a face at her.

VOTERS TURN OUT FOR BOND ELECTION

That the people of the community are interested in the maintenance of the schools of the town at their highest pitch of efficiency was shown by the numbers who voted at the bond election for the purchase of the high school property by the grammar school. Although the polls closed to late for this issue to include the result it is almost certain that the bonds will be carried by an overwhelming majority. From scraps of conversation heard around the polling place one might almost predict that the result would be unanimous, but that would be unheard of at any bond election. At the time this is being written there have been 250 citizens who have displayed enough interest in the community to vote, a much larger number will make known their wishes before the polls close at eight o'clock.

GETS SIX MONTHS FOR MANN ACT VIOLATION

William A. Fields of Arguello street, was sentenced to six months in the county jail by Federal Judge Robert Ben Wednesday. Fields was convicted of having brought a Miss Mary Finney across the continent for immoral purposes in violation of the Mann White Slave act. The men were arrested by the Game Warden for catching undersized abalones. Griffin fined the two men each \$50.

Six Japanese were arrested by Sheriff Lampkin last Tuesday for wrecking an irrigation flume on the ranch belonging to R. H. McDowan near the southern end of the county. COUNTY ROAD SALESMEN

Speaking about swear words, the average motorists says one or two everytime a youngster steps onto the Highway with a bunch of violets or acacia or poppies, which the aforesaid youngster wishes to sell to the passing party. Our way of thinking about it is that the parent of the child should be arrested for allowing the little peddler to sell things without a license.

A DANGEROUS CORNER

The Supervisors of San Mateo county should purchase a bit of land at the corner of School-street and the Boulevard, Colma, and make a round corner. On any good Sunday or holiday nearly a hundred cars a minute come to a sudden stop before they go around the right-angled turn. It is not possible to see around the corner or over the fence, so it is necessary for the motorist to jamb on his brakes and swear a little to ease his disposition. The Supervisors really should save as many swear words as they can and the necessary land to round off the corner wouldn't cost more than a hundred dollars or so.

In case you don't remember the place, it's just across from the Villa Mateo.

PHYSICAL EDUCATION

The following appeared in a metropolitan daily, Sunday:

"Four million children in the United States are seriously underweight. Two hundred thousand babies die in infancy every year, of whom at least one-half could be saved. Twenty thousand women die in childbirth every year."

The piece might have gone on to say that forty out of every one hundred boys who were taken into the army at the outbreak of the war were really unfit for military service because of physical disability.

Here in California there was an intelligent campaign of education started to overcome the causes which made the above stated things a possibility. Experts were employed by the State Board of Education to outline plans for the schools of the state which would correct many of the physical disabilities so common to men and women. The teaching has been started but now Mrs. Nellie Brewer Pierce, the Budget Maker of the State Board of Control, has stated that there will be no money allowed by the State for the State's Physical Education Director. This means that while the work will still be done by the schools in the different communities there will be no one to direct it. It will be without a program and there will be no uniform requirements. The cost of this work to the State is about \$10,000 a year. It would seem to us that the saving of the life of one baby would be worth that much. We hope Governor Richardson will amend his budget to include Physical Education.

LUTHER BURBANK

Last week we celebrated the birthday of a great Californian, Luther Burbank. The schools of the State honored him because of the great things he has done. Luther Burbank said some time ago that he considered the Burbank potato his greatest work. He perfected his potato 62 years ago when he was a boy of 12. For sixty-two years the product of his work and genius has given sustenance and health to countless thousands. But you will say, the potato is such a common thing. That may be true, but when you come right down to the basis of things, the common people and the common things of life are the most worth while wherever you are.

RESPECT FOR LAW

In a resolution adopted by the judicial section of the American Bar Association some time ago are points worthy of deep consideration, as much at the present time as when the resolution was passed, shortly after the Volstead act went into effect.

The resolution is in part as follows:
Reverence for law and enforcement of law depend mainly upon the ideals and customs of those who occupy the vantage ground of life in business and society. When, for the gratification of their appetites or the promotion of their interests, lawyers, bankers, great merchants and manufacturers, and social leaders, both men and women, disobey and scoff at this law, or any other law, they are aiding the cause of anarchy and promoting mob violence, robbery and homicide; they are sowing dragon's teeth, and they need not be surprised when they find that no judicial or police authority can save our country or humanity from reaping the harvest.

JOHN D. NAGLE IMMIGRATION COMMISSIONER

The appointment of John D. Nagle to be Immigration Commissioner at the port of San Francisco is a splendid one and President Harding may be commended for his selection. Mr. Nagle is a native of San Francisco, by nature a student of affairs, is just and honest, and is equipped in every way to bring that office up to a high standard of efficiency. In the campaign of 1920 Mr. Nagle rendered yeoman service to the cause of Senator S. M. Shortridge and during the recent Johnson contest for senator, he was in the thickest of the fight. In both campaigns Mr. Nagle demonstrated his ability as a political organizer and worker. The two senators recognizing his ability recommended him to the president for the appointment. His many friends bespeak success for him in his new field.

FROM OTHER PARTS OF THE COUNTY

Tanforan

The steel for the new grandstand at Tanforan Park is now being put in place and the completed grandstand will be one of the finest in the country. The race track is finished and there are now several strings of horses doing their exercises there. Tanforan will soon be one of the famous racing places of the State.

San Bruno

San Bruno is rapidly coming to the front as a progressive municipality. Over five miles of fine streets have just been completed. Now the mayor and the council say that the town must have a new city hall on a two-acre site just across from Uncle Tom's Cabin. Also City Engineer Geo. A. Kneese has been ordered to draw plans for the surfacing and building of about ten miles more of good streets.

Ocean Shore News

The residents of the Coastside who have shares of stock in the Ocean Shore Railroad are digging them out from their long residing places as a dividend of \$1.50 a share has been declared. Irish dividends have been the order of things for so long a time that a little distribution of cash is very welcome to the stockholders.

Half Moon Bay Mail

The people of Half Moon Bay are circulating a petition for forming of a new rural mail route. Harry Nelson who at present covers the ground has more work than can be done by the ordinary man, so it is the hope of the Coastside people that he may be given part of the route while some one else takes the southern section.

Sounds Like Redwood City

A delightful surprise party was given by the Misses Alice and Anna Sagesser, March 10, at their home on Third avenue. Dancing and games formed a part of the evening amusements and at a late hour supper was served in the garden. Among the guests present were: Rudolph Holmquest, Harold Bozzo, Stanley Marcus, Gene Corqui, Dave Stott, Hamilton Day, Clement Hallett, George McNulty, Fred Myers, Harold Hexner, Helen Thompson, Rose Sagesser, Kathleen Daniels, Frances Mikulsky, Evelyn Clark, Ethel Thompson, Anna Sagesser, Alice Sagesser, Mrs. Day and Mrs. Stott.

New Arrival from New York

Mr. Frank Arkush, brother of Ellis Arkush, is a recent arrival from New York City. Mr. Arkush intends to make his home among us for some time, being at present assistant to Mr. Ray Kelsall, manager of the Garden Theatre of which Ellis Arkush is the owner. Burlington will also have the pleasure of welcoming Mrs. Arkush, who will join her husband in the near future.

To Visit Old Home

Horace Nelson, president of the Bank of Half Moon Bay, accompanied by Mrs. Nelson and son, Lacle, left Monday afternoon for San Francisco, where Mr. Nelson took a train in the morning for his old home in the New England states and will make a three months' visit with his brothers. He is going the southern route and will return home via Canada and the Northern part of the United States.

The Fire District Question

The commissioners of the proposed Half Moon Bay Fire District, which is composed of Dr. Chas. Morgan, A. J. Joseph and Alvin S. Hatch, assisted by Supervisor Francis, are arranging the description of the boundary of the district, and this description will be printed in the next issue of this paper, but before the election is called the commissioners will call a mass meeting making it possible to get the opinions of our town's men. We all want and need such a fire district, therefore, the mass meeting. At this meeting all the details will be talked over and threshed out. "United we stand. Divided, we fall."—Halfmoon Bay Review.

A NEW FIRM

Robert E. Letts of the firm of Letts & Witte has sold his interests to his partner, Mr. Witte, and has retired from the real estate business here. Mr. Witte has associated with himself Mr. Thomas Furman, under the firm name of Witte & Furman.

Mr. Furman has acted as a salesman for Letts & Witte for the past six months and so has become acquainted with local people and local conditions. He has made his home in the Oak Knoll section since coming to Redwood City and will be an acquisition to Redwood City's business activities.

Mr. Letts has several propositions in view, but has not yet decided as to what business he will enter.

AT THE CONGREGATIONAL CHURCH

The regular Sunday services will be held in the Congregational church tomorrow. Captain Graesser, chaplain in the U. S. Army, at present stationed at the Letterman General Hospital, San Francisco, will occupy the pulpit both morning and evening. It is the desire of the committee that every member of the church should be present at tomorrow's services.

Mr. Raymond M. Britton who has often visited Redwood City friends, a brother of the late Geo. E. Britton of South San Francisco, has entered a law partnership with A. P. Harris of Fresno. Mr. Britton is a Stanford graduate and will specialize in income-tax laws.

BUILDING & LOAN ASSOCIATION DIS-TRIBUTES \$19,500 TO SHAREHOLDERS

The San Mateo County Building & Loan Association announced that Series No. 76 of its stock reached its matured value of \$200.00 per share on March 15, 1923, when \$19,500.00 were distributed to the shareholders in said series, this amount being the accumulations of the monthly dues paid in and compound interest earned thereon. The shareholders are privileged to withdraw the value of their shares in cash or allow the same to remain on deposit with the Association for which interest bearing certificates of investment are issued, a safe and profitable form of investment.

There is a good demand for loans from the Association, principally for the erection of new homes, many in Redwood City and vicinity. Investors with the Association are thus aiding the improvement and up-building of the peninsula through a local institution and also relieving the shortage of homes, which has been a very serious condition.

On March 1st Series No. 122 was

opened for subscription and will continue until June 1st, when Series No. 123 will begin.

Information regarding investments and loans on easy monthly payments may be obtained at the office of the Association, 90 Broadway, Redwood City, California.

MILLBRAE DAIRY HOLSTEINS PRODUCE THIRTY POUNDS OF BUTTER IN SEVEN DAYS

The Millbrae Dairy of Millbrae, California, is mentioned in the official bulletin of the Holstein-Friesian Association of America, published bi-weekly by Malcolm H. Gardner, of Delavan, Wisconsin, which reports the milk and butter production of cows under official supervision. The pure bred registered Holstein-Friesian cow, McCloud Bonheur De Kol, is reported as having made at the age of four years and seven months, a record of 555.3 lbs. of milk and 24.709 lbs. of butter fat, in seven days, equivalent to 20.9 lbs. of butter.

Cecilia Rag Apple, of Millbrae, another purebred Holstein cow, also owned by the Millbrae Dairy, is listed in this bulletin too. At the age of three years and four months, she is reported as having made a record of 437.7 lbs. of milk and 16.600 lbs. of butter fat, in seven days, equivalent to 20.8 lbs of butter.

FLAG PRESENTED TO SEQUOIA HIGH

A large silk flag was presented to the students of Sequoia high Tuesday morning by the Geo. S. Adams Relief Corps, a patriotic organization, one whose object is to foster patriotism in the schools. Mrs. C. H. Locker gave a recitation of "Why Should the Spirit of Mortal Be Proud?" in her usual charming manner. Mr. Carrington, whose songs are always appreciated, sang and Mrs. Kincaid, who acted as spokesman for the occasion presented the flag to Mr. Argo for the school. Mr. Argo in a short and able speech thanked the ladies and expressed the gratitude of the school for the beautiful gift. The "Star Spangled Banner" was sung and all saluted the flag.

SAN CARLOS ITEMS

Chester Williams, who was killed in the airplane crash at Monterey last Sunday, was a brother of Percy J. Williams who lives at 730 Walnut street, San Carlos. Chester Williams is well known in aviation circles around the bay. He is the son of the late S. M. Williams, a pioneer San Francisco inventor, who invented a device designed to make aviation safe. In company with his two brothers, Percy J. and Lloyd Williams, he had become interested in commercial aviation and maintained an office at 1211 Van Ness avenue and a factory at 816 Oak street, San Francisco and also a branch factory and aviation field at San Carlos. Young Williams was unmarried and made his home with his mother at the Argyle apartments, San Francisco.

Mrs. H. B. Peterson has returned to her home in Piedmont after a week's visit at the home of her daughter, Mrs. Lester A. Cookin at 211 Cypress avenue.

From the present outlook it would appear that Fred T. Odgers, the applicant for the San Carlos Board of School Trustees, will have no opposition. It was at first rumored that one of the fair sex, who has been quite active in public affairs for some years, would probably enter the race. It appears to be the general opinion that the board is now pretty well balanced with one lady member, and that we should leave well enough alone.

Mrs. Jake Hetterick and her daughter, Mrs. George Pringle, were week-end guests of Mr. and Mrs. J. A. Locke at the Hurlbert apartments.

The San Carlos people were treated to a splendid entertainment at the school house auditorium last Saturday evening which was given by Miss Elizabeth Hulbert and the members of her music and dancing classes. Every one was agreeably surprised at the fine program made by the young people, both in dancing and music in the short time the classes have been organized. With her material adaptation and the enthusiastic spirit she manifests in the work, Miss Hulbert, has a bright future as a teacher in music and dancing. Miss Hulbert was accorded a fine patronage at her first recital with a well filled auditorium of appreciative auditors. The receipts of the evening were donated to the Parent Teachers Association.

SOME SURPRISING FIGURES

Mrs. Anne Godfrey, connected with the Federal Naturalization Service, has been visiting some parts of the county during the last week and made an informal talk to the Women's Club last Wednesday. Mrs. Godfrey has been doing naturalization work for some time and is well acquainted with the foreign problems throughout the state. Some interesting figures were set forth by Mrs. Godfrey during her short stay in Redwood City.

In 1920 out of a total population in this county of 36,781 there were, according to the official figures of the naturalization service 10,985 foreign born whites. There were 628 foreign born residents of other races, chiefly Chinese and Japanese. The number of illiterates was 964, and by illiterate is meant one unable to read in any language, of these 53 were native born and white, 25 of the 63 being between the ages of 16 and 25.

In Redwood City in 1920 there were 1,380 foreign born residents out of a total population at that time of 4,020. There were at that time 49 illiterates in Redwood City, of whom 12 were native born whites.

These figures show a surprising illiteracy among our native born citizens which is almost inexcusable. That 3.2 percent of our population is illiterate merely emphasizes the need of compulsory education and is the strongest argument against any reduction of the public school system. Mrs. Godfrey in speaking of the figures of illiteracy and the business value of education of our citizens to the community, called attention to the newspaper business just as one small example of the value to every member of a community, of the education of every citizen or resident. If every one of the 964 illiterates were able to read and if all who were able to read did so it would increase the circulation of the county papers by just that amount, and would increase the value of every advertisement in those papers accordingly. So we see that the stamping out of illiteracy is of benefit to both the publishers of county papers and to their advertisers. In the same way, says Mrs. Godfrey, every member of a community is benefited by the education of its illiterates and is injured by their illiteracy.

RECRUITS WANTED FOR U. S. NAVY

Chief Quartermaster R. F. Hackett of the Navy Recruiting station, City Hall building, San Jose, visited Redwood City Monday after recruits for the navy. Hackett said that enlistments are now open in numerous ratings and it will be good news to a number of men to learn that they may now be enlisted as firemen on first enlistment. Previously the engineering branch was supplied by men who enlisted as seamen and were later transferred to enlist as a fireman it is not necessary to have had previous experience. Any American citizen who is twenty-one years old and up to the physical standards can enlist. This starts a man out in the engineering branch, where he can become a machinist or other skilled workman.

Men who desire information about enlisting in the navy can obtain it by writing to above address.

SOME REAL COMMON SENSE HERE

On November 22, 1922, an old lady was honored by the American people by being permitted to serve for a day as a United States Senator. Her name is Mrs. Rebecca Latimer Felton. She was appointed by the Governor of Georgia.

Her speech which appears in the Congressional record is as follows: Mr. President, in my very remarkable campaign in Georgia, which, contrary to precedent, all came along after I was selected, one of the very amusing things that came to me by mail was a cartoon from San Antonio, Tex. The cartoon represented the United States Senate in session. The seats seemed to be fully occupied and there appeared in the picture the figure of a woman who had evidently entered without sending in her card. The gentlemen in the Senate took the situation seriously. Some seemed to be a little hysterical, but most of them were looking at the cartoon with the upmost interest. "Will they ask the lady to take a chair?" (Laughter.) I want to return my thanks today for the beautiful, hospitable welcome that you have accorded to the lady when you gave her a chair.

I want to say further that I commend to your attention the 10,000,000 women voters who are watching this incident. It is a romantic incident, Senators, but it is also a historical event. If Lady Astor, from the State of Virginia, can go to London and be accepted as a member of the British House of Commons, you can take this remnant of the Old South that has never faltered in her patriotism to her country and be very well assured that she is not going to discredit her commission. Let me say, Mr. President, that when the women of the country come in and sit with you, though there may be but very few in the next few years, I pledge you that you will get ability, you will get integrity of purpose, you will get exalted patriotism, and you will get unstinted usefulness.

Mr. President and Senators, I thank you very much for this hearing. (Applause on the floor and in the galleries.)

MUSENDORFERS ROBBED

Mr. and Mrs. Waldemar Musendorf had an unpleasant surprise last Friday night when they returned from a visit with friends. They found that some person or persons had cut the screen from a bathroom window and had entered and robbed the house. The burglars took some jewelry and many articles of clothing. The police department was immediately summoned but were unable to get any clue to the identity of the thieves.

Mr. Musendorf is superintendent of the Chemical Works which is located near the Frank Tannery.

Miss Gladys Tabor of Chicago is in Redwood City visiting her cousins, the Misses Laura and Alice Barton, and Mrs. Cora McGarvey.

THE SPEED OF GAS as a fuel is especially appreciated when the Family breakfast must be prepared in a jiffy. Without the aid of gas, Father would go to work and the children would go to school—all of them hungry.

When gas is used, Mother is equal to the emergency. She gets breakfast with a speed which Grandmother, accustomed to the stoves of an earlier day, considers perfectly marvelous.

Gas will serve you in the same way, if you install and use a gas range.

Cleaning Without Odor by the F. Thomas Process

Our many years of experience has taught us that it is impossible to do perfect cleaning with cheap, inferior methods. That is why we found it necessary to invest nearly \$500,000 in the equipment of a plant and the establishment of an expert organization to do the quality of work demanded by our customers.

With the "F. Thomas Process" we not only remove every particle of dirt but we return your garments without that usual disagreeable smell of gasoline. Every drop of gasoline we use in cleaning is redistilled and very highly refined.

Raw gasoline—the kind that you buy for your automobile—is full of heavy oils and unfit for cleaning fabrics. It is little better than ordinary kerosene and leaves a sickening "gasoline" smell in your clothes.
